Subject: [R1emcor] ARRL Simulated Emergency Test

Hi,

is anyone interested in receiving messages from the ARRL Simulated Emergency Test in October this year?

Last year we had nearly 20 stations in 7 Region 1 countries taking part either by receiving and responding to message traffic from the USA.

Messages into Europe will either be sent through Winlink or directly from the USA to DB0NTS through PACTOR where I and others may pick them up for relay to your winlink or personal email addresses to exercise our ability to work using as little internet as possible. DB0NTS is now available

At this point, I'm interested in knowing who, among you, would like to receive SET traffic. Specifically,

1. Your callsign
2. How to get messages to you (see below)
3. How many, maximum (if there is a maximum) SET messages to send to you during the month of October, beginning on/about Oct 1.

Any interest? If yes then please let me know and I will pass the information to the team organising this trans-Atlantic test this year.

73,

Greg, G0DUB

IARU Region 1 Emergency Communications Co-Ordinator

V času od 16.09. do 23.09. je potekala prijava za sodelovanje v vaji. Prijave Gregu, G0DUB, IARU Region 1 Emergency Communications Co-Ordinator-ju je izvedel Tilen, S56CT. Prijavljene so bile naslednje postaje:

S50ABR

S55SM

S57MK

S59ACP

S59DOR

Podatkov o delovanju drugih postaj v času vaje nimam.

POTEK:

- 17.9.2015 prijava S56CT, da nas je prijavil IARU Region 1 Emergency Communications Co-Ordinator
- 26.9.2015 preko ARON skupine obveščeni, da verjetno že imamo sporočilo
- 26.9.2015 preverjena Winlink sporočila S50ABR in S59ACP
- 26.9.2015 S59ACP in S50ABR odgovorila / REPLY na naslov DF0NTS preko Winmor
- 01.10.2015 pričetek vaje

V času vaje je bilo z znakom S59ACP sprejetih 10 sporočil in oddanih 10 sporočil. Vsa sporočila so bila po navodilih oddana v IARU formatu za obliko sporočil in posredovana na naslov DF0NTS, kateri je sporočila iz cele IARU 1. zbiral, ter z Pactor modemom posredoval v USA.

V času vaje je bilo z klicnim znakom S50ABR sprejetih 10 sporočil in oddanih 10 sporočil. Vsa sporočila so bila po navodilih oddana v IARU formatu za obliko sporočil in posredovana na naslov DF0NTS, kateri je sporočila iz cele IARU 1. zbiral, ter z Pactor modemom posredoval v USA.

Uporabljana je bila ARON oprema (TS-590,...) in privatna oprema. Postaja S50ABR in S59ACP sta na sporočili odgovarjali – jih posredovali iz lokacije RK ELEKTRON in privatne lokacije.

V času vaje je bila testirana in dodatno konfigurirana oprema ARON, ki se uporablja v sistemu zaščite in reševanja v SLO.

Vajo je zaključil Greg, G0DUB z zahvalo za sodelovanje in prošnjo po kakšni dodatni ideji za naslednje leto.
